To Whom It May Concern

This is to certify that Dr. Shyamsundar Ghosh, Assistant Professor, Department of Physics, Bejoy Narayan Mahavidyalaya, Hooghly-712147 is academically known to me since 2013 during his doctoral research work at SN Bose National Centre for Basic Sciences, Kolkata when he carried out a few of his collaborative works with me.

After his joining at Bejoy Narayan Mahavidyalaya in 2015 also, he continued joint collaborative research with me mainly on defect-studies of magnetic nanostructures using positron annihilation spectroscopy. This was basically an extension of the previous work and we published our collaborative work entitled "Evidence of Oxygen and Ti vacancy induced ferromagnetism on post-annealed undoped anatase TiO₂ nanocrystals: A spectroscopic analysis" at Journal of Solid State Chemistry in 2019. Our endeavour to investigate and analyse magnetic nonomaterials had been successful and perspective.

Wish him all successes in his future carrier.

(P. M. G. NAMBISSAN)
